NURSING EXPERIENCE

North York General Hospital- REACTIVATION CARE CENTER

RPN | Toronto, ON | 2023 – Present

- Conduct comprehensive patient assessments pre- and post-transition, identifying needs and developing individualized care plans.
- Facilitate smooth transitions between hospital and home settings, coordinating discharge plans and postdischarge follow-up.
- Implement quality improvement initiatives to enhance transitional care processes and outcomes.

Toronto General Hospital- GENERAL INTERNAL MEDICINE

RPN | Toronto, ON | 2022 – Present

- Collaborated and communicated with the interprofessional healthcare team to deliver full scope of nursing practice on medical/ surgical patients.
- Performed extensive head to toe and behavioral assessments. Skilled in mental status examination, drug administration, catheterization, wound care, NG/G tubes management, tracheostomy care and phlebotomy.
- Practiced various de-escalation techniques while ensuring safety of patient and colleagues.
- Demonstrated ability to think critically, work independently and predict changes in patient status.

Humber River Hospital – Nephrology Unit

BsCN Student | Toronto, ON | May 2025 – Present

- Delivering comprehensive nursing care for patients with chronic and acute kidney disease, including monitoring lab trends, fluid balance, and dialysis-related interventions
- Supporting infection prevention and control practices for immunocompromised patients

Hill House Hospice – Palliative Care Unit

BsCN Student | Richmond Hill, ON | Jan 2025- Apr 2025

- Partnered with leadership team to revise infection control protocols and readiness for 12-bed expansion
- Successfully presented revised IPAC policies to staff, ensuring implementation and compliance
- Built therapeutic relationships with families through consistent presence, empathy, and advocacy
